

EVERYWHERE
ALWAYS CONNECTED

EVERYWHERE Garmin inReach® SE+

SAFE—CONNECTED—PRODUCTIVE

SMALL, COMPACT SATELLITE COMMUNICATOR

The EVERYWHERE Garmin inReach SE+ is a handheld satellite communicator that provides global SOS, secure personnel and team tracking and two-way communications. It is specifically built for the Iridium Gateway to provide mobile situational awareness and increased risk management for your agency's most important asset, your people.

The EVERYWHERE Garmin inReach SE+ combines an Iridium® Short Burst Data (SBD) modem for global communications, GPS and a Bluetooth link to the EVERYWHERE Smartphone App to enable communications among personnel and teams in the field.

Using intelligent routing, users are able to seamlessly transition between cellular and satellite for always-connected service when paired with the EVERYWHERE app. Integrated with the

EVERYWHERE Hub, the inReach SE+ enables users to communicate with their team in the field, or in the office, no matter where on the planet they are located.

powered by **GARMIN**

KEY FEATURES

Small, rugged, lightweight satellite communicator enables two-way, truly global, text messaging with your team members

Includes critical 24/7 SOS functions and messaging capability in standalone mode or paired with the EVERYWHERE smartphone app

Using intelligent routing, seamlessly transition between cellular and satellite for always-connected service

Track and communicate with team members deployed around the globe

Internal, rechargeable lithium battery provides up to 90 hours of battery life in 10-minute tracking
